

ES-7087

Hybrid Corn

Hybrid Characteristics

Days to Relative Maturity:.....	78-80	High Population Tolerance.....	Very Good
Black Layer GDU's:.....	1,830	Drought Tolerance:.....	Very Good
50% Silk GDU's:.....	1,037	Ear Type.....	Semi-Flex
Plant Height:.....	Medium-Tall	Ear Height:.....	Medium
Plant Health:.....	Good	Ear Length.....	Good
Stalk Strength:.....	Good	Tip Fill:.....	Very Good
Root Strength:.....	Good	Kernel Rows:.....	16-18
Seedling Vigor.....	Very Good	Cob Color:.....	Pink
Husk Cover.....	Very Good	Grain Yield:.....	Excellent
Leaf Pattern:.....	Semi-Upright	Silage Yield:.....	Excellent
Stay Green:.....	Good	Test Weight.....	Excellent

GDU = Growing Degree Units

Agronomic Recommendations & Special Characteristics

Available as a RR2 Corn or Conventional Corn Hybrid

Early Flowering 78 Day Hybrid

Extremely Fast Drydown - Dent X Dent Hybrid

Excellent for Grain, Silage or Earlage

Recommended Population: 30-36,000 plants per acre
